- Conducted unit tests and integration tests to ensure the quality of the website.
- Participated in code reviews and provided feedback to other team members.

Featured Project

ChoChoLay Zay (Advance E-commerce App @ Asaygo)

Flutter, Material UI, Figma, GetX

ChoChoLay Zay is a C2C e-commerce app developed with Flutter, featuring map integration and a secure chat system. It provides a user-friendly platform for users to buy and sell products within their local community.

APTM (E-Book app @ EthicalDIgit)

Flutter, Material UI, Riverpod

APTM is a Flutter-based e-book and audio book app featuring a PDF viewer, audio player, video player, and screenshot protection. It provides users with a seamless reading and listening experience while ensuring content security.

DuDuZayWal (Woo-commerce app @ eWhale)

Flutter, Wordpress, Woo-Commerce, GetX, Figma, FlutterFlow

DuDuZay Wal is a Flutter-based e-commerce app that seamlessly connects with WordPress and WooCommerce, providing users with a convenient platform to browse and purchase products from multiple online stores.

Umbrella (Document Management app @ 7th Computhing)

Flutter, Material UI, REST API

Umbrella is a Flutter-based e-book app featuring a PDF viewer, screenshot protection, and document management capabilities. It provides users with a secure and efficient platform to view and manage their e-book collection.

Win Brother (HR ERP app @ 7th Computhing)

Flutter, Material UI, ODOO, REST API

Win Brother is a comprehensive ERP app built with Flutter, integrating with ODOO. It includes HR management and Odoo management systems, providing seamless control and organization of business processes within a single platform.

BOC (ODOO ERP app @ 7th Computhing)

Flutter, Material UI, ODOO, REST API

BOC is a versatile ERP app developed with Flutter, connecting with ODOO and encompassing HR management, Odoo management, and fleet system functionalities. It offers a complete solution for businesses to streamline their operations, manage resources, and optimize fleet-related tasks within a unified platform.

✨ I mostly work on confidential B2B projects and tasks for various organizations and companies. Therefore, I cannot share project links or resources with you. However, if you need more information, please feel free to contact me directly.
